AMERICAN MARINES ON GUARD IN CUBA

AMERICAN MARINES ON GUARD IN CUBA

American property in Cuba is now being protected by American marines, who have been landed there in considerable numbers. Though President Gomez does not want intervention by the United States, he is glad to have the marines there, so that his troops can devote themselves entirely to pursuing the insurgents.

SEND CUBANS GUNS

TAFT ORDERS 5,000 RIFLES AND 1,000,000 ROUNDS OF AMMUNITION SHIPPED.

INTERVENTION IS NEXT STEP

Gomez Must Stop Trouble or Else United States Government Will Intervene—Blacks Destroy Town of 4,000 Near Santiago.

Washington, June 5.—According to dispatches received at the state department Monday from Arthur B. Peay, the United States minister at Havana, the uprising of negroes in Cuba is fast gaining the upper hand of the Cuban government.

The situation is so bad that Secretary of War Stimson, by direction of the president, has shipped to President Gomez, at his request, 5,000 high-powered Krag-Jorgensen rifles and 1,000,000 rounds of ammunition for the Cuban government.

The guns will be distributed to the Cuban government among recent converts to the Catholic faith and volunteers. These guns are the same as were used by the United States in Cuba in 1895 in the war with Spain.

This shipment of rifles and ammunition will be all this government will do for the Cuban government.

The next step taken by the United States will be intervention. This is looked for by officials of both state and navy departments.

Preparation for such an emergency are being rushed with all possible haste by both branches of the military.

One step of the military is to send a United States army to the United States hospital ship Solace was taken when that ship was ordered from Key West to Guantanamo.

Her commander, Medical Inspector Manley F. Gates, has been instructed to hold his ship in readiness for duty.

Of the dispatches received from Cuba the state department makes known the following:

"It is reported by the consul at Camaguey, Max J. Buer, that in his district, although the negro movement is entirely crushed, demoralization is extensive and that white families are taking refuge in the towns.

"A band of negroes under General Estecio on the night of June 1 attacked La Maya, a town of 4,000 inhabitants, near Santiago, which they completely destroyed by burning.

WRIGHT PUPIL DEAD

AVIATOR PARMALEE PLUNGES 400 FEET TO HIS DEATH.

Buchtaetter, Carrying German Officer, as Passenger, in Machine. Loses Life With Companion.

North Yakima, Wash., June 4.—The young aviator, Philip O. Parmelee, who had acquired considerable fame as a member of the Wright brothers team of flyers, was instantly killed here Saturday when a gust of wind caught the tail of his biplane and caused it to overturn and plunge 400 feet to earth.

Parmelee had been up about three minutes on his first flight of the day and had traveled almost two miles when the gust of wind struck the machine. The biplane crashed to the ground, crushing the aviator beneath it.

Parmelee was born at St. Johns, Mich., about 24 years ago.

One of his feats as an aviator was his flight over Pike's peak on August 7, 1911.

Bremers, June 4.—Albert Buchtaetter, a widely known German aviator, and his passenger, Lieutenant Stille of the German army, were dashed to death from a height of 500 feet here Sunday, when their aeroplane fell in the presence of several thousand people.

Buchtaetter had several notable flights to his credit and made many air trips last year.

NEW ROADWAY TO BE FINISHED STATE

According to plans which are now being completed the public highway between Fond du Lac and Oshkosh will be one of the finest stretches of road way in Wisconsin.

The city of Fond du Lac has subscribed \$2,500, the county of Fond du Lac \$5,000 and the state \$2,500 to raise a fund of \$10,000 to carry out the building of the new roadway. The city of Fond du Lac plans on paving West Street to the city limits, while the state and county will improve the country highway by putting down either a macadam road with a blue-sand binder or possibly a concrete road.

The first state aid highway work under the state aid highway commission law passed by the last legislature has just been started in Eau Claire county under the supervision of William Maher, county highway commissioner. State aid highways will be laid out in five of the towns in the county this year, \$10,000 being available for the work. Five towns appropriated a total of \$3,700 for highway work and they received like amounts from the state and county alike.

**Berry Boxes Must be Stamped**

As the berry season is at hand and the laws which have been enacted are strict, it behooves merchants and dealers to inform themselves on the new requirements.

The law, Chap. 16 laws of 1912, requires that each berry box of other capacity than the quart, pint or half pint dry measure, must have "plainly and indelibly stamped or branded" thereon in color different from the box and in characters not less than one half inch high, the fraction which shows what part its interior capacity is of a quart or pint dry measure. The quart, dry measure, contains 67.2 cubic inches.

Boxes with an interior capacity of 48 to 52 cubic inches should be stamped or branded 1/2 quart.

Boxes with an interior capacity of 54 to 58 cubic inches should be stamped or branded 3/4 quart.

Boxes with an interior capacity of 58 to 62 cubic inches should be stamped or branded 9/10 quart.

Marking with a pencil is not compliance with the law.

For their own protection retail dealers should demand of commission men or wholesalers, if the crates do not contain standard quarts, pints or half pints or are not sold and billed by net avoirdupois weight, that the berries shall be billed so as to show the true fractional part of the quart or pint, as the case may be; and the retailer should exact a sufficient legal guarantee that the boxes are as represented and billed. They should insist that their invoices represent the facts in the case.

**Would you hitch four horses to a single buggy?**

Of course not—and it's just as wasteful to use a four-cylinder automobile when the single-cylinder Brush Runabout will do your work.

And it will *do* your work. A Brush Runabout will cover three times the area possible with your horse and buggy—in the same time—and do it at less expense.

**The Brush Runabout \$450**

A guaranteed, efficient automobile

Fully Equipped. (C.O.B. Detroit)

The advantages of the single-cylinder—economy, efficiency and simplicity—have long been recognized in Europe, where they make single-cylinder cars costing five to eight times as much as the Brush.

The Brush is a real automobile, as highly developed on a smaller plan as expensive large cars. Each car is equipped with shock-absorbing devices under the Truflaut-Hartford patents, top, storm front, gas lamps, generator, tools, etc.

Come in and see this car. Let us show you how it will save you time and money and increase your business.
